## DAILY NEWSPAPERS SELL FOOD FROM FARM TO FAMILY

THE FOOD INDUSTRY, biggest business in all the world, depends on the daily newspaper to help it move its many thousands of different items off grocers' shelves. In 1958 consumers spent a record \$79,000.000,000 for food.

Food processors use the daily newspaper to keep consumers constantly aware of the brand names that appear on their packages and containers. They rely on it as the most important medium to carry news of over 6,000 new products they announce every year. Because food is news, they naturally turn to the world's outstanding news medium.

On the local scene the daily newspaper plays an equally

efficient and important role for food distributors and retailers. For them the daily newspaper is an indispensable means of communication between them and the food-conscious housewife. It is indispensable because it generates immediate results.

All along the vital food line, from growers and processors to the hungry consumer, the daily newspaper, with a record circulation of 58,605,000 copies, performs a gigantic task of moving this mass of goods. It moves all kinds of products because it sells them nationally and locally.

THE TOTAL SELLING MEDIUM IS THE DAILY NEWSPAPER

## 'These Days'

By GEORGE E. SOKOLSKY APPEASEMENT AND COMPROMISE

It is a truism that to the most impudent go the spoils, particularly of politics. If the meek are to inherit the Earth, the day of inheritance is a long way off. This is as true in international relations as it is in the private world.

Soviet Russia has never been meek. From the very start of its existence in 1917, it has been aggressive, forceful, attacking. The reason has been that the Marxist is convinced of the inevitability of his success because of the laws. which he accepts, of historic necessity. Believing as he does, that the progress of man is due to the conflicting forces in a materialist world, he feels that what he needs to do is to wait. Meanwhile Soviet Russia conducts an untiring war of propaganda and infiltration. As Mao Tze-tung once said: "Politics is war without bloodshed.

War is politics with bloodshed."
But bloodshed is the least vicious of the Marxist devices. The worst is the destruction of the uman mind. This is sometimes called brain-wash ing, a term which is apt but not sufficiently de scriptive of what actually happens to the human mind and spirit. Much of life was materialistic long before Karl Marx was born. We need to eat, to drink, to clothe ourselves, to move from place to place, to provide for a family, and so on.

If one reads Dr. Nelson Glueck's "Rivers in the Desert," he can go back many thousands of ears and find that man was then struggling against his physical environment and with what ingenuity he managed to succeed. But something was added. The spiritual appears in man early in his history—that is, a non-physical something, a gossamer invisibility so strong that it binds and holds one as the conscience does. This is the soul of man, the God in man. The existence of the

"In 1910 the 'New York World' had offered a prize for the first flight from Albany to New York. Glenn Curtiss, then 32 years old, decided to win it. And win it he did, being acclaimed for having made the 'longest and most daring flight in history.'

JUVENILE DELINQUENCY

Not long ago a New York City Judge wrote to the New York Times saying that in the 17 years he had been on the bench not one Chinese teen-ager had been brought before him on a juvenile deliquency charge.

P. H. Chang, Chinese Consul-General in New York was asked to comment. He said, "I have heard this story many times from many judges. I will tell you why I think this is so. Filial piety is a cardinal virtue my people have brought over from the China that was free. A Chinese child, no matter where he lives, is brought up to recognize that he cannot shame his parents. Before a Chinese child makes a move, he stops to think what the reaction of his parents will be. Will they be proud, or will they be ashamed? Above all other things, the Chinese teen-ager is anxious to

please his parents. The amazing record of the Chinese children and young people shows that it is in the home that the cure for juvenile delinquency will be foundand in no other place.

## Here's why the best place to save is at a full-service Bank!

There are three big reasons why it's wise to start the habit of systematic saving at a full-service bank:

1. Your money is well-protected in a full-service bank because a bank has a substantial percentage of its funds in cash, government bonds and short-term loans. This means you can

be sure you get your money, in cash, when you want it. 2. A full-service bank answers all your banking needs, so it's by far the most convenient place to do business. Want a savings account, checking account, low-cost personal loan? No matter what you need, a full-service bank can take

3. You help build your personal bank standing when you do business with a full-service bank. Bank standing means that a bank knows you . . . works with you. Actually, personal bank standing is one of the most valuable assets you can have! So why not develop financial security and independence by opening a savings account today. Varipapa was not only a phenomenal bowler in those days but added a brilliant trick shot repertoire that was his and still is his principal trademark. The many friends of Keresman who will be on hand to honor him on April 9 are in for an interesting time when Varipapa strides to the

#### Keeps Him Young

At an age when most men have slowed to a rocking chair pace, Andy still maintains a furious schedule of coast-tocoast appearances to demonstrate his tenpin mastery including an uneqalled bag of trick shots.

In fact, Andy credits bowling for keeping him young in heart and stamina and he has a half century of tenpin achievements to prove it. He was one of bowling's pioneer match game kings and achieved a pinnacle of success in 1947 when he won the BPAA National All star event at the age

To illustrate his unchallenged span of bowling prominence Varipapa set a world record for exhibitions in 1932 with a 275 average for six games, was elected to the ABC Hall of Fame in 1957 and thrilled a 1959 nationwide television audience by rolling nine straight strikes to win \$8,000 on the "Jackpot Bowling" show.
